

Gas Safe Register

Gas safety information tailored to individual audiences' including consumers, landlords, tenants and industry. Cut and paste these into any into any of your communications to provide all the information needed about Gas Safe Register.

Consumer

Short:

Gas Safe Register

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. By law, all gas engineers must be on the Gas Safe Register. It replaced CORGI. Only use a Gas Safe registered engineer to fit, fix or service your appliances and always check the engineer's Gas Safe Register ID card. For more information and to find and check an engineer go to www.GasSafeRegister.co.uk or call 0800 408 5500. Better Gas Safe than sorry.

Long:

Gas Safe Register

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. By law, all gas engineers must be on the Gas Safe Register. It replaced CORGI.

All Gas Safe registered engineers carry a Gas Safe Register ID card. Before any gas work is carried out always check the card and make sure the engineer is qualified for the work you need doing.

Badly fitted and poorly serviced appliances can cause gas leaks, fires, explosions and carbon monoxide poisoning. Carbon monoxide is a highly poisonous gas. You can't see it, taste it or smell it, but it can kill quickly with no warning.

Protect yourself from the dangers by following these simple steps:

- Only use a Gas Safe registered engineer to fit, fix or service your appliances
- Get your gas appliances regularly serviced and safety checked every year
- Fit an audible carbon monoxide alarm
- Check for warning signs such as lazy yellow flames or black marks or stains around the appliance.
- Know the six main signs and symptoms of carbon monoxide poisoning – headaches, dizziness, nausea, breathlessness, collapse and loss of consciousness.

Always ask for a Gas Safe registered engineer and always ask to see their ID card. If you suspect anyone to be working illegally report them to us. If you have had gas work done in your property in the last six months, you can nominate it for a free gas safety inspection. For more information and to find and check an engineer go to www.GasSafeRegister.co.uk or call 0800 408 5500. Better Gas Safe than sorry.

Tenants

Gas Safe Register

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. By law, all gas engineers must be on the Gas Safe Register. It replaced CORGI.

Landlords have responsibilities for gas safety. All gas appliances provided by the landlord must be correctly maintained and a gas safety check must be carried out every 12 months by a Gas Safe registered engineer.

If you are a tenant always:

- Check the ID card of any gas engineer that comes to do work in your home. The engineer must be Gas Safe registered.
- Cooperate with your landlord and let a registered engineer in whenever a gas safety check or maintenance is required
- Ask for a copy of the gas safety record before you move in or within 28 days of it being carried out.

Remember, if you think a gas appliance is faulty turn it off and let your landlord know immediately. Badly fitted and poorly serviced appliances can cause gas leaks, fires, explosions and carbon monoxide poisoning. If you feel unwell seek medical help immediately.

For more information and to find and check an engineer go to www.GasSafeRegister.co.uk or call 0800 408 5500. Better Gas Safe than sorry.

Landlords

Only use a Gas Safe registered engineer to fit, fix or service your appliances and always check the engineer's Gas Safe Register ID card.

Landlords are legally responsible for the safety of their tenants. Landlords should make sure maintenance and annual safety checks on gas appliances are carried out by a Gas Safe registered engineer. By law landlords must make sure:

- pipe-work, appliances and flues provided for tenants are maintained in a safe condition
- that all appliances and flues that they provide for tenants use have an annual safety check
- that maintenance and annual safety checks are carried out by an engineer registered with Gas Safe Register
- all gas equipment (including any appliance left by a previous tenant) is safe or otherwise removed before re-letting
- a gas safety record is provided to the tenant within 28 days of completing the check or to any new tenant before they move in
- they keep a copy of the gas safety record for two years

Before any gas work is carried out always check the engineers ID card and make sure the engineer is qualified for the work you need doing. Encourage your tenants to do the same.

Trade

How to register

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. By law, all gas engineers must be on the Gas Safe Register. It replaced CORGI.

Registering with Gas Safe Register is a legal requirement for anyone carrying out gas work in the United Kingdom, Isle of Man and Guernsey. For more information and to register email register@gassaferegister.co.uk or call 0800 408 5577.

How to find an engineer

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. By law, all gas engineers must be on the Gas Safe Register. It replaced CORGI.

To make sure that gas appliances such as boilers, fires, ovens and hobs are fitted, fixed and serviced safely, only a Gas Safe registered engineer should carry out the work. If someone other than a Gas Safe registered engineer undertakes gas work, they are breaking the law and could put lives at risk.

To prove they are legally permitted to work on gas, all Gas Safe registered engineers have an ID card with their own unique licence number and a photograph. Those in the building industry must always check that engineers contracted to undertake gas work are on the Gas Safe Register.

To find or check an engineer go to www.GasSafeRegister.co.uk or call 0800 408 5500.

Gas Safe registered engineers

Gas Safe Register

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. By law, all gas engineers must be on the Gas Safe Register. It replaced CORGI. The Gas Safe Register makes sure the engineers on the Register are safe by inspecting the gas work they have carried out.

As Gas Safe registered engineers you can feel safe in the knowledge that we are competent and qualified to work safely and legally with gas. By using a Gas Safe registered engineer you are protecting yourself and your family from incorrectly fitted, fixed and serviced gas appliances. These are a major cause of lethal carbon monoxide poisoning, and can also lead to gas leaks, fires and explosions.

Always ask for our Gas Safe Register ID card and check the back of the card to make sure we are qualified for the work you need. To check our registration details visit www.GasSafeRegister.co.uk or call 0800 408 5500. Better Gas Safe than sorry.
